

SANZIDA MOIN TITHI

B.Sc. in CSE (Final Year) — Software Engineer / Competitive Programmer

📍 Satkhira, Bangladesh — 📞 +8801740745352 — ✉️ moinsanzida4@gmail.com

📄 [Sanzida Moin](#) — 🌐 [Sanzida5](#) — 🌐 [Portfolio](#)

PROFILE

Final-year CSE student at KUET with hands-on experience in building desktop and web applications. Proficient in C++ with strong problem-solving skills demonstrated through 390+ problems solved on Codeforces. Experienced in PHP, Linux/Ubuntu, and mobile development. Seeking software engineering roles to build scalable and reliable backend systems.

PROBLEM SOLVING

Codeforces – Handle: [tithi.61](#) — Max Rating: 1038 [codeforces](#)

LeetCode – Username: [tithi.61](#) — Rating: 1540 [leetcode](#)

TECHNICAL SKILLS

- **Languages:** C++, Python, Java, JavaScript, HTML, CSS
- **Frameworks & Tools:** Firebase, Java Swing, PHP, Laravel, Git, Bootstrap
- **Databases:** SQL Server, MySQL
- **Engineering:** Responsive UI/UX, Linux/Ubuntu, backend systems, problem solving

PROJECTS

Codeforces Progress Tracker – React.js, Vite [GitHub](#) — [Live Demo](#)

- Built a responsive dashboard to track solved problems, ratings, goals, weak topics, streaks and weekly progress.
- Implemented filtering, analytics charts, profile settings, light/dark mode and LocalStorage persistence.

LaravelProject-Foodie (Laravel 10) [GitHub](#)

- Developed a full-stack food ordering web application using Laravel MVC architecture.
- Designed MySQL database schema for users, food items, carts and order details.
- Built Blade-based frontend views and backend logic for menu browsing, cart management and order processing.

Dynamic Portfolio – PHP, JavaScript, CSS [GitHub](#)

- Built a personal portfolio web application to showcase profile, skills, projects, education, CV and contact information.
- Designed responsive sections with project links, competitive programming profiles and professional contact details.

Colorful Fruit Detection and Counting System [GitHub](#)

- Developed a computer vision system to detect and count fruits using HSV color space.
- Applied morphological operations, contour detection, hole filling, distance transform and watershed segmentation.
- Built an interactive Gradio-based interface for real-time image upload, visualization and result display.

Bank Management System – Desktop App [GitHub](#)

- Developed a Java Swing desktop application for account creation, deposits, withdrawals, transactions and customer management.
- Implemented MySQL storage for secure and efficient banking data management.

- Implemented directional, point, and spot lights with Phong and Gouraud shading techniques.
- Built animated features such as articulated pedestrians, ceiling fans, doors, TV animation and water ripple effects.
- Applied procedural textures and curve surfaces using GLSL, GLFW, GLAD and GLM.

EDUCATION

Khulna University of Engineering & Technology (KUET)

Mar 2022 – Expected June 2026

B.Sc. in Computer Science & Engineering

Khulna, Bangladesh

- CGPA: 3.39/4.00 up to 7th Semester; currently in 8th Semester.
- Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, Database Systems, Image Processing, Computer Graphics.

Assasuni Government College

2018 – 2020

Higher Secondary Certificate (HSC)

Satkhira, Bangladesh
